Special Issue
Higher Education, Sustainability and Digital Practice

Message from the Guest Editors

This Special Issue aims to present and disseminate recent theoretical, methodological, and empirical advances concerning the intersections between higher education, sustainability, and digital practice. We welcome contributions examining how universities and other higher education institutions are responding to sustainability challenges through digital transformation, innovative teaching and learning practices, institutional strategies, and engagement with wider society. Particular attention is given to interdisciplinary and comparative perspectives, as well as to studies addressing social inclusion, inequalities, territorial contexts, and the opportunities and challenges associated with emerging digital technologies.

Guest Editors

Prof. Dr. Rocío Blanco-Gregory
University of Extremadura

NameProf. Dr. Isabella Corvino
University of Perugia

Deadline for manuscript submissions

31 May 2027
